- Resort-style pool
- Outdoor gazebos, seating and manicured lawn areas for smaller community gatherings, classes or events.
- Playground areas
- Outdoor Amphitheater and Lawn

### PLANNED NATURAL AMENITIES

- Almost 1/3 of the community is dedicated to parks and open space, with a variety of large grassy areas, playgrounds, community gardens, shade structures, picnic areas and more.
- A network of approximately 15 miles of hard and soft-surface trails will meander throughout the community, accompanied by a variety of trail heads for hikers, bikers and walkers.
- We are committed to respect the land that was here before us, and re-establish what may have been lost during construction. So our landscaping includes the utilization and re-seeding of natural plants and grasses that will grow and transform over time. It will take a little time for this refined and carefully considered landscaping to mature, but it will be well worth the wait.
